PROFESSIONAL SUMMARY

Computer Science student at UC Irvine specializing in AI/ML, with hands-on experience building LLM-powered applications, end-to-end ML pipelines, and automated business workflows in production and competitive settings. Skilled in Python, LLM integration, and cross-functional collaboration across multi-department teams.

EDUCATION

University of California, Irvine

B.S. in Computer Science.

Expected 2027

Relevant Coursework: Data Structures and Algorithms, AI/ML, Data Management, Statistics, Linear Algebra, Discrete Math for CS, Digital Systems, Programming with Software Libraries, Multivariable Calculus, Project Management, Software Design

EXPERIENCE

AI & Business Process Intern

Jun 2026 – Current

Architectural Design & Signs

- Developed an automated email workflow delivering personalized dashboards to each sales representative, summarizing active projects, billing progress, collections, and commission data.
- Applied LLMs to estimate sign material costs from dimensions and material types, supporting faster customer quote preparation.

Software Development Manager Intern

Jun 2025 – Sep 2025

Pramerica Fosun

Shanghai, CN

- Built LLM chatbots using Dify, enabling real-time departmental data queries and cutting information retrieval time by 50%.
- Collaborated with management across Finance, Risk, and HR departments to develop MCP-based LLM features for on-demand visual analytics, working under the tech department manager to streamline cross-departmental reporting.
- Researched emerging AI tools and evaluated their applicability across business departments, delivering weekly presentations to summarize findings, highlight team contributions, and identify areas for improvement.

AI Training Contributor

Jan 2026 – Current

Handshake AI

Irvine, USA

- Trained and evaluated AI model responses against structured prompting guidelines, providing feedback to improve output quality and instruction-following accuracy.
- Annotated AI-generated content across technical and professional domains, ensuring alignment with rubric criteria and contributing to iterative model improvement.

Code Coach

Nov 2024 – Jan 2026

The Coder School (No. 2 out of 50+ stores nationwide)

Irvine, USA

- Designed and delivered coding lessons in Python and C++, tailored to students across varying skill levels.
- Coached students in building real-world applications including games and websites, fostering technical confidence.

Member, East Asian Entrepreneurship Fraternity

Sep 2023 – Current

Eta Omega Chi at Irvine

Irvine, USA

- Organized career panels with leaders from SpaceX, Google, and PIMCO, expanding cross-industry exposure for 70+ members.
- Secured sponsorships through outreach and proposal development, establishing contracts with new and returning partners.

PROJECTS

Diabetic Readmission Risk Dashboard

- Built an end-to-end ML pipeline predicting 30-day hospital readmission risk on the UCI 130-Hospital dataset (101,766 encounters) using Random Forest with SMOTE; evaluated with ROC-AUC, TPR, and FPR.
- Tools: Python, Scikit-learn, Pandas, Numpy, Seaborn, Joblib

Melissa API Navigation Tool

- Led a team at a Datathon to build a route optimization platform using Python and OR-Tools, solving the Traveling Salesman Problem for 340+ real-world locations.
- Tools: Python, JavaScript, Folium, OR-Tools, Osmnx, Numpy

SKILLS

AI/ML Tools: LLM Workflows, Dify, N8N, MCP, Pandas, Numpy, Scikit-learn, AWS, Git

Programming Languages: Python, JavaScript, SQL, C++, HTML, CSS, MATLAB, Verilog, LaTeX

Business Courses: Marketing, Real Estate, Accounting, Finance

Languages: English, Mandarin, Spanish

Certifications: NY Real Estate Salesperson Licensing Course
