PROFESSIONAL SUMMARY

Computer Science student at UC Irvine specializing in AI/ML, with experience building LLM-powered applications, end-to-end ML pipelines, and data-driven tools in production and competitive settings. Proficient in many languages and LLM integration, with a track record of delivering AI solutions across real-world datasets and cross-functional teams.

EDUCATION

University of California, Irvine

B.S. in Computer Science.

Expected 2027

Relevant Coursework: Data Structures and Algorithms, AI/ML, Data Management, Statistics, Linear Algebra, Discrete Math for CS, Digital Systems, Programming with Software Libraries, Multivariable Calculus, Project Management, Software Design

EXPERIENCE

Application Developer Intern

Jun 2025 – Sep 2025

Pramerica Fosun

Shanghai, CN

- Built LLM chatbots using Dify, enabling real-time departmental data queries and cutting information retrieval time by 50%.
- Collaborated with Finance, Risk, and HR teams to develop MCP-based LLM features for on-demand visual analytics, streamlining cross-departmental reporting workflows and enhancing decision-making speed and accuracy across business units.

AI Training Contributor

Jan 2026 – Current

Handshake AI

Irvine, USA

- Trained and evaluated AI model responses against structured prompting guidelines, providing feedback to improve output quality and instruction-following accuracy.
- Reviewed and annotated AI-generated content across technical and professional domains, ensuring alignment with rubric criteria and contributing to iterative model improvement across multiple evaluation cycles.

Code Coach

Nov 2024 – Jan 2026

The Coder School (No. 2 out of 50+ stores nationwide)

Irvine, USA

- Designed and delivered coding lessons in Python and C++, tailored to students across varying skill levels.
- Developed project-based learning experiences to strengthen student engagement and problem-solving skills.
- Guided students in building real-world applications including games and websites, fostering creativity and technical confidence.

Member, East Asian Entrepreneurship Fraternity

Sep 2023 – Current

Eta Omega Chi at Irvine

Irvine, USA

- Organized career panels with leaders from SpaceX, Google, and PIMCO, expanding cross-industry exposure for 70+ members.
- Secured sponsorships through outreach and proposal development, establishing contracts with new and returning partners.
- Coordinated cross-department collaboration to execute large-scale events, ensuring on-time delivery under deadlines.

PROJECTS

Diabetic Readmission Risk Dashboard

- Built an end-to-end ML pipeline predicting 30-day hospital readmission risk on the UCI 130-Hospital dataset (101,766 encounters) using Random Forest with SMOTE; evaluated model performance with ROC-AUC, TPR, and FPR.
- Tools: Python, Scikit-learn, Pandas, Numpy, Seaborn, Joblib

Melissa API Navigation Tool

- Led a team at a Datathon to build a route optimization platform using Python and OR-Tools, solving the Traveling Salesman Problem for 340+ real-world locations.
- Integrated Melissa API and built an interactive web dashboard for real-time visualizations and analytics.
- Tools: Python, JavaScript, Folium, OR-Tools, Osmnx, Numpy, CSV

SKILLS

Programming Languages: Python, JavaScript, SQL, C++, HTML, CSS, MATLAB, Verilog, LaTeX

AI/ML Tools: Pandas, Numpy, LLM workflows, Dify, N8N, MCP, AWS, Git

Business Courses: Marketing, Real Estate, Accounting, Finance

Languages: English, Mandarin, Spanish

Miscellaneous: Video Editing, PowerPoint, Microsoft Excel, Microsoft Word

Certifications: NY Real Estate Salesperson Licensing Course
